

QMS Policy

Through this policy, ODESSA SEPARATOR INC. (OSI) is committed to fulfilling customer and other applicable requirements by continuously using innovative technology, providing our customer with excellent services, and exceeding our customer's demands. This will be accomplished through continually improving our services and internal processes and fulfilling our Quality Objectives as defined in our Quality System.

We foster a culture of continuous improvement through audits, risk assessments, and active employee engagement. By offering training, clear communication, and opportunities to participate in QMS initiatives, we empower our employees to maintain the highest quality standards. We promote teamwork and accountability to drive excellence across all operations.

Gustavo Gonzalez
CEO – Odessa Separator Inc

Mission

Odessa Separator Inc. offers Sales and service of Filtration/Sand Control, Gas Separation, Chemical Treatment and Downhole Pumps in support of applications for the Oil and Gas Industry.
