

CHEM STICKS

For a fast dispersal, chemical shock treatment, OSI CHEM STICKS are dropped directly into the well from the surface. Corrosion, scale, paraffin, or other destructive downhole agents are now easier than ever to combat.

Based on OSI's patented micro-encapsulation technology, the ChemSticks are simple supplements to enhance chemical treatment, requiring no additional costly resources.

ChemSticks are ordered with general or well-specific formulas for any flowing well or any artificial lift well: SRP, ESP, PCP, gas lift, plunger lift, and jet pump.

BENEFITS

- Well-specific prescriptions are based upon water & oil analysis.
- All corrosion sticks have quat + scavenger include for combating H₂S.
